CAREER TRAINING

Bio Sculpture's comprehensive training equips nail technicians to deliver personalised treatments that prioritise nail health. By analysing each client's unique needs, we provide solutions beyond traditional methods. Focusing on long lasting results and advanced techniques, nail technicians are empowered to build successful careers. Access to premium products, ongoing support and flexible work opportunities further enhance professional growth.

Beginners Training

Beginner Training is a minimum 3-day comprehensive course covering natural nail care, Bio Sculpture Biogel and Evo application, Gel Polish services, and basic nail extensions including full cover tips and safe product removal. Trainees gain hands-on experience with premium products and benefit from ongoing support, building a strong foundation for confident, professional nail services.

Conversion to Bio Sculpture

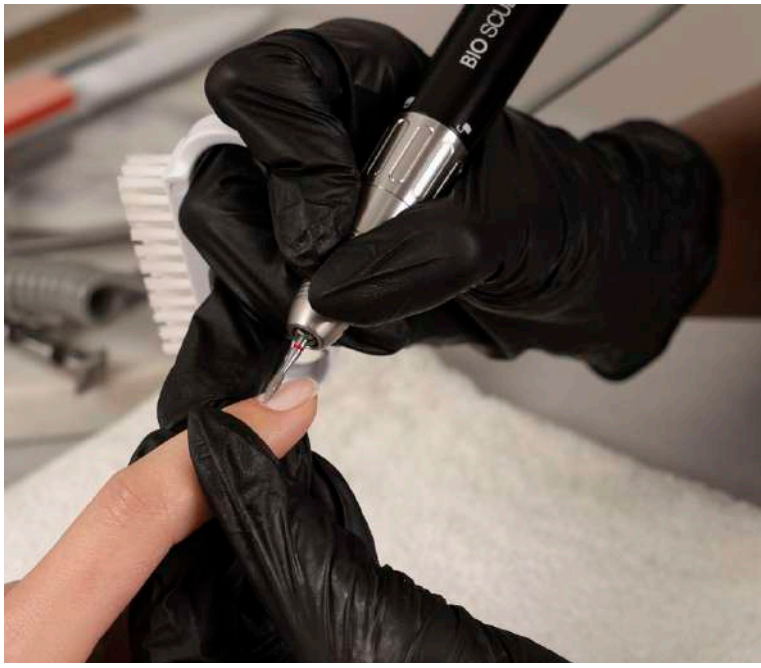
Conversion Training is structured for an experienced nail technician who desires brand training to use and purchase professional Bio Sculpture gel products. Technicians will receive comprehensive training in natural nail care treatments as well as Spa product knowledge, Bio Sculpture Gel and Gel Polish product application, basic nail extensions, Full Cover Tips and product removal.

E-File Training

E-File Training is a 1 day course structured for Bio Sculpture trained technicians and experienced nail technicians. Technicians will receive comprehensive training of the E-File system, gel removal, nail plate prep, dry gel shaping, fills, and finishing touches.

Bi-Olygel Training

A 1 day course structured for Bio Sculpture trained technicians and experienced nail technicians in a similar product training background. Technicians will receive comprehensive training in natural nail care, treatments, Bi-Olygel product application, form sculptures, moulded sculptures and product removal.



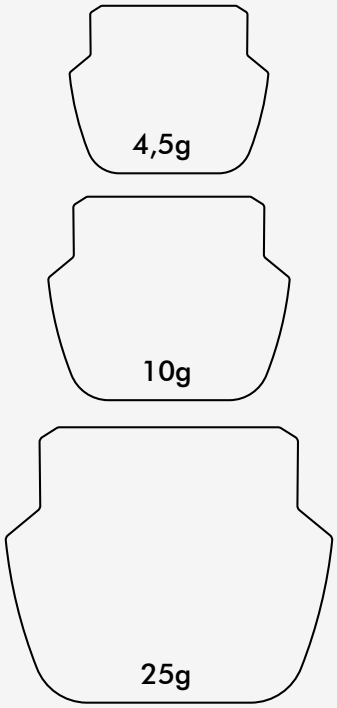
Colour Builder Gel Training

Colour Builder Gel Training is a focused 4-hour specialist program designed to elevate technical precision and service efficiency. The training covers accurate builder application techniques, structured finish control, and proven methods to increase speed without compromising quality. Nail technicians will learn how to create strong, durable enhancements with a refined, natural-looking finish—ideal for delivering consistent, high-performance results in a busy salon environment.

BIO SCULPTURE GEL

Biogel is the original, professional, soak-off, easy wear nail gel system in a jar. With a 5 star Safety Rating boasting natural nail health, while beautifully enhancing and transforming any nail. A scientifically formulated pure gel range which varies from flexible to solid. Biogel is suitable for every nail type and is excellent for extending and strengthening nails. Biogel is durable, chip resistant, self-levelling with a long lasting gloss finish, and removes within 10 to 15 minutes.

Base and Builder Gels available in:



Base Gel

Original Base Gel. Base layer promoting good and long lasting product adhesion to the natural nail. Base layer and upper arch strengthening layer for healthy nails. Base Gel provides strength and support to the nail, yet still complementing the flexibility of the natural nail. Ideal to saturate silk.

4,5g: 09_4
10g: 09_10
25g: 09_25

Conditioning Gel+

Conditioning Gel is a specialised base gel which offers extraordinary adhesion for thin, sore, damaged, dry and distressed nails. This enriched base gel conditions the nail plate, promoting nail health in a concealer-foundation colour. See results after just one application.

4,5g: 27/5
10g: 27/10
25g: 27/25

Builder Gel

The ultimate soakable hard base & builder gel, with embedded fibres for effective self-levelling and exceptional strength, applied in a thin and smooth application.

4,5g: 28/4
10g: 28/10
25g: 28/25

Soft Gel

Base layer and upper arch strengthening layer for soft, flexible nails. Soft Gel provides strength and support to the nail, yet still complementing the natural nails flexibly. Ideal to seal nail art/French overlay.

4,5g: 12_4
10g: 12_10
25g: 12_25

Apex Gel

Designed to create supreme strength, with a firm viscosity for creative wet gel shaping. The innovative technology of Apex Gel allows it to be applied as an upper arch strengthening layer on medium to hard nails, or as a strong support on long nails and extensions.

4,5g: 25/5
10g: 25/10
25g: 25/25

Free-Edge Gel

Firm texture lengthening gel used to create form and silk sculpture applications, in a natural free edge colour. Provides a strong and durable free edge finish in various nail shapes and lengths.

4,5g: 14_4
10g: 14_10
25g: 14_25

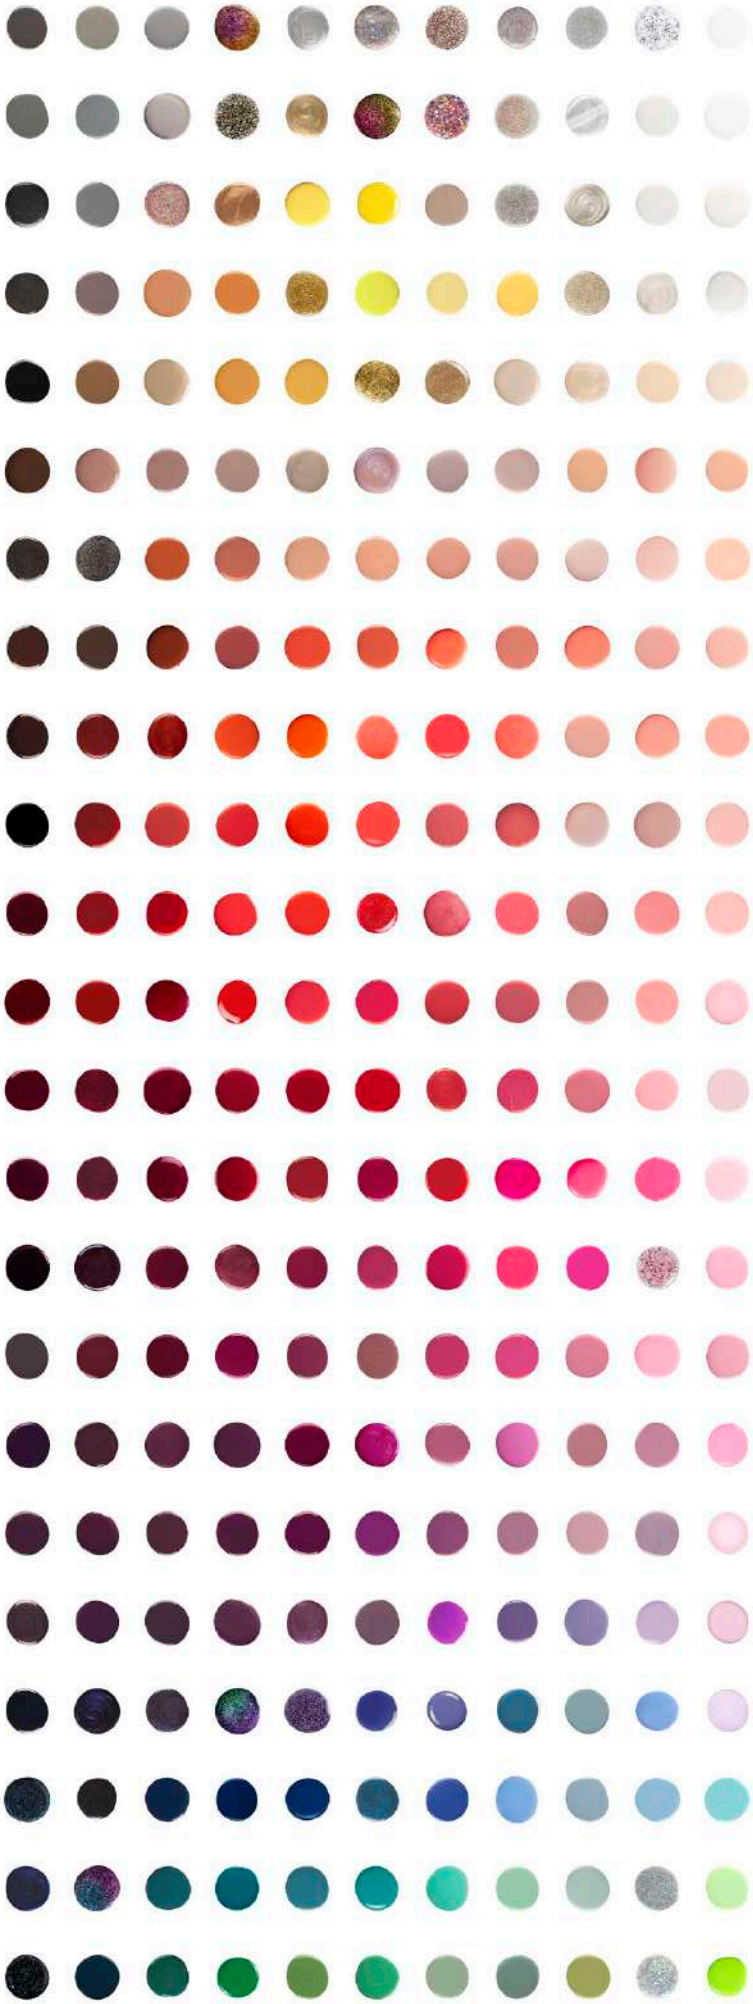
Bio Sculpture Top Coats

Protective high gloss, scratch resistant gel finish to all overlay applications. Suitable for all nail types and keeps the overlay looking beautiful for weeks.

4,5g: 13_4
10g: 13_10
25g: 13_25

Bio Sculpture Colour Gels

Biogel Colour Gel is durable, chip resistant and self-levelling. With a range exceeding 200 colours, nail art and overlay possibilities are endless. New fashionable colours are launched seasonally, adding to the Biogel range with a matching Bio Sculpture Nail Polish range.



COLOUR BUILDER GEL

Bio Sculpture's Colour Builder Gel unites exceptional strength, colour and application efficiency, all in an easy soak-off formula.

Available in 10 signature shades, Colour Builder Gel is designed for effortless application. Each shade enhances the beauty of the natural nail with colour while building strength and structure, in a thin and natural-looking finish with lasting durability.
With self-levelling ease and a quick 30-second LED cure. Designed for the demands of modern professionals and the expectations of luxury clients.

Snow
